This was my first read by the author and I must say I am impressed. I can't wait to read the rest of the series!! 0 of 0 people found the following review helpful. Ho Hum By Lois Very boring! It is sad when authors or writers think the only way they can get readers is by infusing their novels with sex. The story plot was almost non-existent. 0 of 0 people found the following review helpful. I Enjoyed This Story By Book Reviewer I don't normally read in this genre, but I did enjoy this story.
