After I sorted out who was who I was able to really get into the story. Good, strong female characters. My favorite was Hanna because she decided to embrace life and enjoy her family. The two romances were fun to read. Everyone had made mistakes and we're getting a second chance to love again. 1 of 1 people found the following review helpful. Eye Opening Book By Judy R. These four ladies thought they had everything they needed in life but found true happiness and love in a small town in Oklahoma. They rediscovered themselves and liked what they found. I loved the storyline and characters in this book. Laughed at times and cried at times while reading this book but what a wonderful book to read; but then all the books I have read by Carolyn Brown have been great. I really enjoyed the two romances that developed in this story and the strong men involved. Now they had life figured out, who they were, and where they were going which is sometimes lacking in our world these days. Get the book - easy reading and hard to put down. 6 of 6 people found the following review helpful. Pleasant

reading! By E.J. Mac Crakin I enjoyed this book. I call this kind of story "Summer Reading". It is light but holds your interest. Perhaps a little too much kitchen information for me. But then I am not crazy about the kitchen. I thought the romances were structured in an interesting way. Never knew for sure who was going to end up with who?? The secrets that were hidden were tender and revealed in an interesting manner. I have saved it to go back and read again sometime. See all 970 customer reviews...
