About the Author Jeffrey M. Perloff is a professor in and chair of the Department of Agricultural and Resource Economics at the University of California at Berkeley. His textbooks are Modern Industrial Organization (co-authored with Dennis Carlton) and Microeconomics. Professor Perloff has been an editor of Industrial Relations and an associate editor of the American Journal of Agricultural Economics. He is currently an associate editor of the Journal of Productivity Analysis and edits the Journal of Industrial Organization Education. A fellow of the American Agricultural Economics Association, his economic research covers industrial organization, marketing, labor, trade, and econometrics. He has consulted with a number of nonprofit organizations and government agencies including the Federal Trade Commission and the Departments of Commerce, Justice, and Agriculture.

Customer Reviews Most helpful customer reviews 4 of 4 people found the following review helpful. Can an economics book be funny? Yes, it can! By Jacques M. Mueller Purchased for an intermediate micro class. Not only is the material explained well with real-life examples, but you get the added plus of the author's dry sense of humor in the content and as footnotes! Having the answers to many of the problems in the back is great for review. Recommended! 2 of 2 people found the following review helpful. Gigantic book, but not that great By Levi I am using this book for college intermediate micro and I have to say that it really hasn't helped one bit. Economics is best understood when presented with numerous examples and this book contains very few. For the price, don't buy. I don't even use mine anymore and just look up whatever is confusing. I suggest anyone else to do the same. 0 of 0 people found the following review helpful. good book By agbev222 Great way to save money by buying the unchanged older edition of this book. I wish more sample problems that focused more on theory and less on the math were included though since that is what my micro course focused on See all 95 customer reviews...
