Not many can say they were burned by fate. I'm the exception. Scalded figuratively, emotionally, and physically... I have the scars running down my arm, ribs, and side to prove it. The doctors have done what they can to heal me by smoothing the abraded skin using other parts of my body. But they can only do so much. Sometimes, what can't be seen can't be healed. The fire that night took more than a pound of flesh. It obliterated my talent, beauty, and most importantly, seared the connection I had with the man I loved. Sure, it was me who pushed him away, but I had my reasons. I did what any woman would do in my situation. I gave up everything so that one day he'd find happiness and peace. Now I've healed a bit on the outside, and on the inside, but I still crave the one I let go. To this day he looks at me with fire in his eyes, a heat so bright in his being he glows with it. I fear the light, the flames that could consume me whole. The problem now is, he's not mine anymore. I just may have waited too long to fight for him, for us, for a future together. There's only one thing I can do. Let fate decide.

Couldn't put it down By A. Pfau Though the back story for this couple has been provided in other books of the series (and I heartily recommend taking in those books, as well!), one can totally read this story, of Carson Davis and Kathleen Bennett, and enjoy it as a stand-alone book. AND WHAT A BOOK. The themes of the story--learning to accept that the past is the past, and is to be celebrated for the strength it brings you instead of the hardships--is soul-deep and sincerely expressed by Ms. Carlan, especially when she throws some heavy-hitting plot twists at this pair of fated lovers. They once had the fairy tale, but are struggling to find their passion and trust again even after her horrific scarring and a fumble from his past that has haunting ramifications. It is in these conflicts where Carlan always excels--and she pulls no punches on the ka-pow factor of this story. That, paired with characters who will make you cheer, sigh, and swoon in equal measure, is the stuff that made this book a true page-turner for me. I truly couldn't put this story down. It moved me, captivated me, and most of all, reaffirmed my belief in the abundant power of true and lasting love between a pair of fated souls. Absolutely stunning. 0 of 0 people found the following review helpful. Great ending to a heart pounding series!!!! By BookCrazy5658 I am so ashamed of not leaving my review sooner life and work got in the way but I floved this book so hard. Kat and Carson gave me the feels and that cutie pie Cora just made me smile so much. I could just picture her that's how good this book was. Seeing all the other girls and hearing about their lives as well. Chase and Gillian were awesome as usual. I'm so happy that after everything kat went through she got her happily ever after with her Prince and princesses. Audrey did it again!!! And you know I had to buy that paperback.. Thank you BNL 0 of 0 people found the following review helpful. A Trinity Novel set By beachfun I chose this rating because there was to much time spend on negative. When it was compared to some other great series I was excited, Book one hooked me so I bought the series. After reading part of the second book I wouldn't have wasted my money with the rest. Every character in this series has something extremely negative happen to them and it takes forever to get threw it. On books 2-5 I skimmed at least a 1/4 of the book if not more to get past just the negativity of it, other wise the storyline is awesome! See all 62 customer reviews...
