By GMDimples33 I would have to say, the last few chapters of the book were the best.....otherwise this installment of the Gender Game series sort of dragged a bit. It was nice to again hear the thoughts of Viggo and Violet, and it was clear that SOME tyrant would be exposed, but I fought a yawn for the bulk of this book. However, as is often the case with series, some books are foundational in building to a climax, and perhaps this is the book to fill that role in this series. It was still well written and the characters well developed, so I give it 4 stars and do recommend it. 1 of 1 people found the following review helpful. I'm happy to have another series to binge read :) By Melly I like this series. I'm a middle aged woman who's a big fan of YA fiction, such as Twilight, The Hunger Games, Divergent & The Vampire Diaries. I was very pleased to find another series to get hooked on, and this series has not disappointed. I believe it would make a great film series as well. It's good fun with a nice little love story. Enjoy! 0 of 0 people found the following review helpful. Mindblowing By Ren mizuki This series is absolutely amazing.
