Thea James is scraping by and trying to make a decent life for herself. She keeps her nose clean and stays out of trouble, trying to do what she can to pay the bills. One night on her way home she becomes a witness to a murder. Suddenly, with the shot of a bullet, she's thrust into a world she had no idea existed. But what's Thea to do when the darkness that could swallow her is exactly where she wants to go? Salvatore Costello is the boss in the Los Angeles mafia. He's in charge of everything, and that includes who he allows in his inner circle. He's spent his whole life not letting anyone close to him because he knows what the consequences could be. But one night changes everything. She's a witness and she needs to be taken care of, but after one touch, he's redefining what that means. Is she strong enough to lead his empire? Will she be ripe enough to give birth to one? Warning: This is dark, dirty, baby-making smut. This guy is after Thea, and he's got a plan to keep her from getting away. Want to take a guess at what that is? Hint: There's absolutely no birth control in this book. If you want it, come and get it! We've got you covered.

Too fast By Jazmine Coleman The storyline started good but then it hit a dimension that wasn't reality. They fell in love after 1 night? I can see him may be but Thea didn't even know him. The book moved entirely way too fast. See all 289 customer reviews...
