William Tate Morrison - The man who came into my life and turned my entire world—and me—on its ass. Logan Mitchell has always been a man with a plan. One for work. One for his relationship. And one for his life. Which is exactly the way he liked it—until recently. Now with words like marriage and weddings floating around his head, Logan's plans have suddenly changed course, and where they want him to go has him feeling somewhat distracted. Tate Morrison knows Logan better than anybody else—or so he thinks. So when his lawyer is finding it hard to sleep at night, he chalks it up to the craziness that has recently descended on their lives. Never in a million years would he guess what's really on Logan's mind. Tate is the fifth book in the Temptation Series, and the next chapter in the lives of the two men we have all come to know and love..

Review "Just when I think it can't get any hotter, or more devastatingly beautiful between these men, Ella Frank destroys me all over again with each book." -- Audrey Carlan, #1 New York Times Bestselling Author "TATE is honest, emotional, and real. I laughed and cried. I read with my heart in my throat, feeling Logan and Tate's love in every word." -- Bestselling Author, Riley Hart "Masterfully written, Tate is THE book that we needed. Essential. Unapologetically executed... If someone were to ask me about characters that changed my life, I would unequivocally utter the names of Logan and Tate. Every. Time." -- Bianca, Biblio Belles "Ella Frank created two of the best men I've ever read. They are beautiful, inside and out. Their love is pure and forever. It's respectful, it's gracious, and it is so hot, even after all these years, their love is, in a word, legendary." --

Scandal, Scandalicious Book Reviews "Swoon. Seriously. I swooned with just about every page flip. Sure, we have Logan and Tate's usually ridiculous hot AF times, but there was something so much deeper in Tate. A maturity. Maturity in their relationship. Maturity in their lives. And I am so grateful to have been along for the ride. I can't wait for their next chapter." -- Bookgasms Book Blogs

"The timeframe always works, the pacing is great, the flow is spectacular, the sex is beyond scorchin' and everything always, always makes perfect sense at the end of the day." -- Goodreads Reviewer "I am in awe." -- A Gandy Girl "Again, January can't get here soon enough. This is a no-brain(er) recommendation, as in, if you don't read this book you must not have a brain."--Gay book reviews "Logan and Tate are my guys - I wouldn't care if the entire book was L&T reading the phone book, I would adore it."-- BJ's Book Blog "One of my favorite couples. Ever. They feel like my friends at this point. Friends I could read about for a lifetime." -- Two Book Pushers "Once again Ella Frank has created something truly amazing. Emotional, funny, raw, sexy, powerful, realistic, heartwarming .... TATE is an ABSOLUTELY STUNNING BOOK!!" -- Cupcakes and Bookshelves

This is the book you never see coming. There are things left unexplored by Logan and Tate as they are four years deep in their relationship. Emotions and pain never addressed, come crashing to the surface in this book. And it's heartbreaking. The author leaves no one unscathed. Logan and Tate must face their past while looking towards the future. What I love the most about this book is that there is no unnecessary drama. It's written from the depths of Logan and Tate. You HEAR their voices. You feel them. Their hopes, their dreams, and unwavering love is echoed through the words of this book. "I remember everything about you. Don't you know that by now?" I know. I'm not giving much away. But trust me. You've never known the magnitude and profoundness of Logan and Tate's love until this book. This is a story that you should go in blind. There are books that you read and there are books that you LIVE through. Tate is that book. Logan and Tate have been in my literary life for years. I've grown with them. Fallen in love with them. Yes, they face obstacles as all couples do, but this book? This is different. These two connect on a level that I can barely put into words. "Never think for one second I have ever thought anything other than the world of you. Because it wouldn't be true." Can we please take a moment to discuss the sheer unparalleled talent of this author? There is a certain scene that left me breathless. I was IN that moment with these two men. I felt the moment hearts shattered. The hurt in that moment was tangible. The scene palpable. Ella Frank, your innate capacity to write with such power in your words is simply incomparable. I get CHILLS thinking about that scene amongst others. The push. The pull. The angst. My heart simply raced with every word. The words were candid. These men left naked to each other. The sincerity of their love? Unmistakable. The book is written with a realism that could be felt through every turn of the page. Emotions are raw. Tensions are high. Logan and Tate face some unmasked truths, but their strength and resilience is nothing short of inspiring. "This right here. This ability he has to make me forget that anything in the world but him exists..." While I mention the emotional aspects of this book, it is also perfectly balanced with the highly erotic and passionate moments that only Logan and Tate can give us. Masterfully written, Tate is THE book that we needed. Essential. Unapologetically executed. Tate without a doubt, highly exceeded my expectations. To say I am excited for the next book in this series would be an understatement. Words change people. Characters make an impact. This story? These characters? They challenged me. They pushed me. They left a mark on my heart. If someone were to ask me about characters that changed my life, I would unequivocally utter the names of Logan and Tate. Every. Time. 0 of 0 people found the following review helpful. Logan + Tate are back again, and we love it! By Courtney~MustReadBooksOrDie Shel: Court and I have been Ella Frank fans since way back in the EXQUISITE days so when we see a book that is connected to that series and has the capacity to branch into something new (I'm looking at you Robbie and Priest) comes out, we can't help but get excited to read it. We've been enamored with this series; Logan and Tate's love story is one that we've swooned and laughed and just felt so much with and if you read

the most recent book, Tease, you knew their story wasn't over yet. Court: YES! We fell in love with Ella and devoured every book she had out at the time (and over-tweeted her, I think) and just really set in stone that we had to read every book she writes forever. And I think we've pretty much hit that nail on the head just about! This series is no different, and getting back in this world is never a bad thing (even though I'll admit I was nervous there was more to come just because of the unknown of where things would go!) Shel: We promised not to give anything away in this review but we can tell you that you'll definitely enjoy the continuation of their story and the ending will have you excited for what's to come. Court: Absolutely. Logan and Tate have a unconventional way they got together, but the more we see them grow in their life together the more we want books with them in it! I think we can both agree that Ella is delivering 1000% on that. Shel: Logan and Tate, in Tate, felt more real than romance. We got to see a little more of their daily grind, their worries and challenges, and their love. We got to see a love that many of us experience--that show of daily love that isn't always a roller coaster (though those moments most definitely appear here)--and I liked this different look at their more 'settled' love. Of course Ella Frank isn't going to take it too easy on us, there was definitely a section where I had some strong emotions...as will you, I'm sure. And where Logan and Tate are there are heated looks and flaming hot scenes, yet another reason to love these boys and their creator (that one scene! You'll know when you get to it). All in all, Tate delivered a very satisfying continuation of their love story and I'm interested in how this all ends for them. Court: Exactly. I couldn't have said it more perfect, Shel. I was really, really nervous about what would happen. Really! Ella Frank's writing is amazing, and I appreciate that her stories are always rock solid in editing, a plot thicker than gravy and characters that are fully developed that we can love and learn from. Their journey becomes our journey with Ella at the keyboard, and I think you'll really enjoy this one (though, we do highly recommend you check out the previous installments in their life while you're at it!) 0 of 0 people found the following review helpful. It doesn't get better than Tate and Logan By Joelle M. I am totally and completely speechless right now. This book took me on such an emotional roller coaster, it's going to take forever to recover. I love that Logan's finally on board with marrying Tate. But if you're silly enough to think that this is going to be a walk in the park - think again! This is Logan Mitchell we're talking about. Life may not always be easy with him but it sure as hell is fun! So we know that Logan and Tate have been together for several years and they have faced some pretty serious stuff along the way. But if there's one thing you can always count on, it's how strong their love is. A lot of couples out there are "made for each other" but Logan and Tate are in a league all their own. Logan wouldn't be the Logan we know and love if not for Tate and Tate definitely wouldn't be who he is today without Logan urging him to Try. I love that Ella Frank is giving us more of these two. She's giving us more of their happily ever after yet, at the same time, making real life sound sexy and interesting. These boys may be on the road to settling down but make no mistake - the looks they send each other can set your Kindle ablaze. There's no doubt about how much I love when these two get down and dirty....Logan's new office (oh sweet Jesus)....the drive-in (\*dies\*). It doesn't get any hotter than Tate and Logan. But in those sweet moments when we discover just how deep their feelings are for each other....those are the moments that are pure gold. Then there are the moments that break your heart. The ones where you can't stop the tears from running down your face, your breath from catching and your heart from stopping. Yes, there's some of those here too. Sometimes, they're tempered a little touch of humor. Sometimes not and you're left to wonder if your heart will ever be the same while you hold tight to that small sliver of hope that everything will work out the way it should. This book makes you feel all of that and more. All I can really say is sit back and enjoy the ride! See all 185 customer reviews...
