Review What Amazon reviewers are saying: "I would highly recommend this book to anyone who enjoys a good adventure with lots of twists and turns." "I have really enjoyed this series. The author was unknown to me in the beginning, but now I am on an adventure each time I choose to pick up her book. The characters are relatable and endearing." "I wish this series never had to end but it was a phenomenal ride!!!" "Unlike many other long series, this ending left me satisfied more than upset, even though I had to say goodbye to the characters. Man, I'm really gonna miss them! DEFINITELY 5 stars!" "If you like books like Hunger Games and Divergent you will love this book." "The characters are rich and human." "Story line keeps you glued. Great plot!" "I enjoyed the combination of sci-fi, romance, humor, loss, hope, and even some morality lessons." "Just an exceptional book! I screamed, cried, got my heart broken, had it mended....I couldn't speak for a long while after I finished!!!" "This finale is breathtaking."

book of the series, however, the author wrapped everything up in a neat little bow and I know there's a spin off which I can't wait to read! This is one of the few post-apocalyptic books I've read and by far the best. 0 of 0 people found the following review helpful. It Is Finished..... By Phyllis Pickens What an emotional read !!! There were many trials and tribulations to overcome, some with happy endings and some not. In the end , sacrifices were made, changes were instituted, and the Gender divide ceased. 0 of 0 people found the following review helpful. This book was the greatest of the series By Bonita M. Sampson But to tell the truth all of them were awesome but this one had me talking out loud to the characters and feeling like I was there. I loved the Gender Game series, I'm enjoying all of the different books you've written, I do multitask reading. Thank you See all 182 customer reviews...
