As an everyday reader I see a lot of great books and also the not so great. I loved the general concept of the book as it had your love story intertwined with a not so crazy possibility. In the world we live in today it's easy to see how something like this could become reality one day. The writer keeps you interested

and the story moving along well. Very few grammatical errors and overall a very addicting read. The characters are well described and easy to envision. This series could easily become the next big blockbuster movie. If your on the fence give it a try I am sure you'll like it. 0 of 0 people found the following review helpful. Thought I still had a ways to go in the book and then it was over and I am sitting here like, Ummm No you cannot end it on the . By Sharon This book was a bit slow and dragged out to me. Well that is until the very end. Thought I still had a ways to go in the book and then it was over and I am sitting here like, Ummm No you cannot end it on the note. Thankfully book 6 is due out next month. Overall I do like this series very much. Love the characters Violet, Viggo, Mrs. Dale, Amber and cannot wait to see how they stop the Queen and Desmond. 1 of 1 people found the following review helpful. Fun dystopian read! By Kathryn Labbe The Gender Plan Series popped up on my recommended reading after reading The Hunger Games & Maze Runner & other dystopian books. Enjoyed the read & looking forward to the release of book 7! See all 185 customer reviews...
