Read Online

I'll protect her no matter what... One fake marriage. One hot billionaire. One beautiful nanny. Trying to run a billion-dollar empire while my son chews up nannies for breakfast is tough. Until Sabrina. Blue eyes that could fill the sea and legs for days. I can barely talk to her without stuttering. The gorgeous bomb shell is the only nanny my son has ever loved. She's also the only nanny I've ever loved. But her psycho ex-boyfriend is obsessed with marrying her, and he's willing to do anything to have his way. Only one option. I marry her first. I'll do anything to protect her, but the ex takes it too far. Now I have to rescue her before it's too late! This steamy contemporary romance will keep you company tonight, tomorrow, and the day after. No cheating and a satisfying happily ever after!

Review Here's what reviewers are saying about Mr. Everything: "This is Emily Bishop's debut novel and it may be my all-time favorite debut. There's passion and drama galore and a story that sucks you in so hard and fast you can't put it down." "Wow!!! Mr. Everything by Emily Bishop, as the title suggests, has it all. It has lol moments, hint of suspense, anticipatory, love, EVERYTHING!" "This is a debut novel for this author but to tell the truth, it seems so well written it could be by a very well published writer. Em, you totally knocked me on my derriere with this one." "This book kept me

hooked. I didn't want to put it down. The book is well written and the characters were great. With a few twists and the different emotions this story keeps you reading." "This story has it all. What an amazing read and very well written. " "These are definitely my favorite kind of stories. The ones that have not only the sweet and steamy romance, but some drama to keep it interesting."

Customer Reviews Most helpful customer reviews 44 of 47 people found the following review helpful. Great Debut Novel, Solid 4.5 Stars (Ensuing Commentary Is Free Of Charge) By BookAddict Sabrina managed to escape an abusive situation and gets a job as a nanny for Randall's son, David, but she has her work cut out for her. Not only is David opposed to having a nanny (and females in general) but her ridiculous attraction to Randall is problematic with the agency's strict no fraternization rule. But when it looks like her captor has found her and is determined to get her back, Randall's protective instinct kicks in. He vows to do anything to keep Sabrina safe. This advance copy I read is my first work by Ms. Bishop and I thoroughly enjoyed it! She managed to include a little of everything in this book. A super hot alpha, an endearing, wounded heroine and a cute, mischievous boy, with an equally mischievous dog. Randall is a terrific hero but will need to figure out that his need to protect is borne out of his love for the people he is compelled to protect. Sabrina has spent so much time running and hiding, giving up on dreams she was once close to realizing. Together, they learn new things about themselves, strengthen each other and become so much more together than they could be alone. This is a fascinating story with strong characters, passion, suspense and danger. Definitely an interesting, entertaining read and worth a one-click.

~~~~~ So that was my original review, until I read a review with one star. When I voluntarily review a book I feel like I have a responsibility to other readers. If I say a book is good and someone buys it and hates it, I share some responsibility in their bad reading experience. But to leave a one star review after only two chapters is unfair to everyone. The one-star reviewer may never try this author's work again, the author's nascent reputation may be unfairly tarnished by a possibly erroneous conclusion, and other readers may not give this new author a chance based on a one-star review. I've certainly changed my mind about purchasing books in the past after reading an unfavorable review. Let's face it. There are some bad books out there, some really, really bad books out there. But this is not one of them. The plot is well thought out, including a twist or two, and the story moves along at a quick pace. The characters are realistic and multidimensional, and the bad guy is evil enough that it's pretty darn rewarding seeing him brought down. There aren't endless run-on sentences, strange and confusing paragraph breaks, and there're no agonizing malapropisms I've had to endure in some books. Is this book the best thing since sliced bread? The Second Coming? The end-all, be-all? No. But it's a pretty darn good debut novel from an author who shows promise and deserves a chance. If you're like me and you enjoy finding new authors and maybe even feeling like you've had a tiny part in their future success, give Ms. Bishop's book a chance. Maybe even leave your own review. 0 of 0 people found the following review helpful. Good storyline By Kindle Customer The writing is very good. I really liked Sabrina and David, they were entertaining. Randall didn't click with me for some reason though. One major part was a little unbelievable to me and that's a billionaire not guarding his child better. I believe most billionaires have at least one guard on their helpless child. 0 of 0 people found the following review helpful. Fun and good reading By Amazon Customer This book describes sex too much but at least it didn't come up until after being married. Very suspenseful too and it had a great blend of adventure, romance, suspense and action. See all 305 customer reviews...
