Review Holy Hotness...I mean...wowweee!!! I loved all the characters but Gemme & Whitt were just so damn hot. Reading this book you could feel the steam rising Older man/younger woman...hot steamy love story. You will thoroughly enjoy this book. I adore all of the characters, and enjoyed the bonus chapter. This story was deep and had me yelling out loud at intense times while reading it. The book has loads of twists and drama...you will totally fall in love with the Sexy Mr. Porter. This is a well written romance novel; with a touch taboo, a certain amount of angst, and just a little twist of

jealous--and some mega hot sex that will steal your breath away! I just couldn't stop reading it with everything this book has to offer, forbidden love, older man, jealousy and of course HOT SEX!!!!

Thank you for writing such a good book, and please keep writing more. Wow! Wow! Loved this book! This has got to be one of my most favorites from Amy. I want a do over right now! This book is sexy, deliciously yummy, taboo all the way, I couldn't put it down until I was finished! I can't wait for all of you to read it to see what happens with Whitt, Gemma and Lila. I always read the first couple of pages to determine how the book feels...I could not put this book down. I read the entire book as soon as I downloaded it--and LOVED it!!

This book is a keeper...the storyline is awesome; the characters are fully developed; and the emotional roller coaster is a thing of beauty! This is a well written romance novel; with a touch taboo, a certain amount of angst, and just a little twist of jealous--and some mega hot sex that will steal your breath away! You need to 1-Click this bad boy today! I loved this book. Once I started I couldn't put it down until I was at the end and still was left wanting more. The characters had so much heat its a wonder my kindle didn't melt. The story was well written. I would definitely recommend this book to anyone. This is a must read for any book love. I could not stop reading until I finished. This is such a good read that I give it my highest recommendation and urge you to read it. BUT... beware, there is lots and lots of sex. I'm not kidding. And not in just the bedroom. I'm talking in every room at home, at work on furniture, on counters, in the pool, etc. So, you've been warned :-)

Amy Brent you have do it again I loved this book I stayed up till 3am to finish this book because I just couldn't put it down it was funny, sexy and hot. Wow, I don't know what I expected, but I know I didn't expect this story to be so freaking hot! It is hot, it is steamy, but it also has heart. What more can you want in a good story?? Their story is sweet, sexy and has a great story line - it's not all about the hanky panky, though there is plenty to keep you hooked!! I couldn't put it down!!! The intense, intimate start to Whitt and Gemma's relationship was an earth shaking way to start this story. While it was a little difficult reading how hard it was for both of them dealing in their own way about Whitt's daughter and Gemma's best friend, it truly showed how explosive love can be between the right people. The way both moved through their tumultuous relationship brought tears to my eyes but the way they started to move through that was amazing! This book will have you thinking naughty thoughts about hot daddy's you have met before maybe your friends daddy. When you read this one you'll be the one needing a cold shower. There is something about a story that you aren't supposed to like that I am completely attracted to. This one is perfect. Amy knows how to reel you in. I love her writing style. And the aggressor is actually Gemma not the man which was a nice twist. - Actual Reviews from Amazon Customers

When the heroine tells the hero she's pregnant and he leaves, when he shows up and says he'll pay for the abortion ... Finally, when she has to ask him if he will ever marry her and he just agrees to it, not even a proposal! No romance. Even his thoughts are cold, uncaring, sexual not loving. Heck, not even obsessed. But what else should I expect from this author? She thinks her readers don't want romance and from the rave fangirl reviews, she's right. 25 of 28 people found the following review helpful. Not cute By nellie rivera I voluntarily reviewed an Advance Reader Copy of this book. I have to say, that I was surprised by all the great reviews, I just do not understand and do not get it. I wont give it a 2 star because I don't agree with the love story, but it in my opinion and since I was asked for it, I will give it. I don't understand how you could condone someone repeatedly demeaning woman by calling them sluts. It's not cute..Aaand he had a daughter, how would he feel if someone called her that? He had no respect, no respect for woman. Then there is Gemma, she had no self respect constantly throwing herself at this man, luckily she finally got a little back bone when she realized that he was going to sleep with Ashley to prove his point, I would have stopped reading at that point, I honestly had to make myself continue to read it, and it was hard for me, because as I mentioned I honestly detest, detest when they treat woman that way, and I am a shamed that we as

woman, not only accept this, but think that this is a love story. 15 of 16 people found the following review helpful. Not my favorite. By Booklvr I usually really like the books I've read by Amy Brent, but this one missed the mark for me. I really had a hard time with this one. I thought the main female character, Gemma, was immature and never really grew up. She pursues Whitt, the main male character, who is her best friend's dad. There wasn't any real romance in this book, just sex. I didn't particularly like Whitt, I thought he was a jerk, he was sleeping around, and he was kind of mean to Gemma. This story just didn't do it for me. I received an ARC of this book and this is my honest review. See all 493 customer reviews...
