Review "One of the reasons why we adopted the Mankiw text was because of its relevant concepts

that students could really relate to. I would say to continue with this trend, and also be sure to use examples that relate to the current economic conditions that make sense to a beginner economics student." "I have used Mankiw for several years, across at least 3 or 4 of its editions. I like the writing in the book--it's clear and exposit the ideas effectively. It covers topics that I want to cover, mostly in the order that I like to cover them. It's at the appropriate level for our students--not too difficult but not superficial either. I also like the fact that this book is very closely integrated with the Aplia system, which I believe is an important learning tool." "Very student friendly text. Makes economics easy to understand. Some of the other texts would take a lot of reading to explain an idea." About the Author N. Gregory Mankiw is Robert M. Beren Professor of Economics at Harvard University. He studied economics at Princeton University and MIT. Dr. Mankiw is a prolific writer and a regular participant in academic and policy debates. His research includes work on price adjustment, consumer behavior, financial markets, monetary and fiscal policy, and economic growth. His published articles have appeared in academic journals, such as the American Economic Review, Journal of Political Economy, and Quarterly Journal of Economics, and in more widely accessible forums, including The New York Times, The Washington Post, The Wall Street Journal, and Fortune. Dr. Mankiw has been a research associate of the National Bureau of Economic Research, an adviser to the Federal Reserve Bank of Boston and the Congressional Budget Office, and a member of the ETS test development committee for the advanced placement exam in economics. From 2003 to 2005, he served as chairman of the President's Council of Economic Advisers.

Customer Reviews Most helpful customer reviews 0 of 0 people found the following review helpful. Five Stars By Captain Spaulding Just as described, the way it should be. 0 of 0 people found the following review helpful.
