

# Ebook What Happened By Hillary Rodham Clinton

"In the past, for reasons I try to explain, I've often felt I had to be careful in public, like I was up on a wire without a net. Now I'm letting my guard down." —Hillary Rodham Clinton, from the introduction of *What Happened*

For the first time, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. Now free from the constraints of running, Hillary takes you inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. This is her most personal memoir yet. In these pages, she describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. With humor and candor, she tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. She speaks about the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. She lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. *What Happened* is the story of that campaign and its aftermath—both a deeply intimate account and a cautionary tale for the nation.

Review "What Happened is not one book, but many. It is a candid and blackly funny account of her mood in the direct aftermath of losing to Donald J. Trump. It is a post-mortem, in which she is both coroner and corpse. It is a feminist manifesto. It is a score-settling jubilee.... It is worth reading." —The New York Times "What Happened is a raw and bracing book, a guide to our political arena." —The Washington Post "The writing in What Happened is engaging — Clinton is charming and even funny at times, without trying to paint herself in too flattering of a light.... Ultimately, the book might be a historical artifact most of all — the chronicling of what, exactly, it was like to run for president as the first woman major-party candidate (and, yes, a Clinton as well). Plenty may disagree with Clinton's opinions on what went wrong for her, but her story will still be an important part of that history when America looks back on the melee that was the 2016 election." —NPR About the Author Hillary Rodham Clinton is the first woman in US history to become the presidential nominee of a major political party. She served as the 67th Secretary of State—from January 21, 2009, until February 1, 2013—after nearly four decades in public service advocating on behalf of children and families as an attorney, First Lady, and Senator. She is a wife, mother, and grandmother.

Customer Reviews Most helpful customer reviews 3650 of 4194 people found the following review helpful. Amazon wiped out negative reviews By Amazon Customer what happened to the negative reviews? Looks like Amazon is censoring. I read this book -- a curiosity but lacking true substance and introspection. 3136 of 3665 people found the following review helpful. Exactly as bad as you thought it would be, except a tad worse. By michael This book is exactly what we all expected, full of anger and bitterness and no actual remorse or even the hint of personal responsibility. Sure she writes the ubiquitous " I take full responsibility bla bla bla...". In fact, she blames everyone but herself. From the Russians to her emails to Kellyann Conway and fake news, no one is left alone. The only good part of this book is the ability to relive the experience of the total and complete takedown of a woman who dedicated her entire life to her own enrichment from a guy who is the exact opposite. Its nothing but poetic justice and this book is great at reliving every moment of it. 882 of 1033 people found the following review helpful. This pretty much sums up the book By Manuel Beiro I'm a non-partisan who has actually read this book and have to agree with many of the negative reviews here. This pretty much sums up the book: 1) It was MY turn 2) The campaign was absolutely impeccable..without any flaws whatsoever 3) It was everyone else's fault See all 700 customer reviews...
