Review "[A] thrilling tale of passion and suspense...Realistic characters and a frightening plot will keep readers spellbound with numerous twists and turns...Wraps up with a love scene that's hot enough to make a polar bear sweat." —RT Book Reviews, 4 1/2 stars HOT"A page-turning blend of romance, thrills, and danger! Hidden is a winning debut from a new star in romantic suspense." —Allison Brennan, New York Times bestselling author"Make room on your keeper shelf! Hidden has it all: intricate plotting, engaging characters, a truly twisted villain. I can't wait to see what Kendra Elliot dishes up next!" —Karen Rose, New York Times bestselling author

About the Author Kendra Elliot has always been a voracious reader, cutting her teeth on classic female sleuths and heroines like Nancy Drew, Trixie Belden, and Laura Ingalls before proceeding to devour the works of Stephen King, Diana Gabaldon, and Nora Roberts. She lives and writes in the rainy Pacific Northwest with her husband, three daughters, and a Pomeranian, but dreams of living at the beach on Kauai.

Customer Reviews Most helpful customer reviews 38 of 40 people found the following review helpful. Stunned by the Ridiculous Final Third and the Homophobia By Connie Usually you can get a feel for a book if you download a sample. In this case, you would be tricked into thinking this was going

to be a great read. The novel starts out with a interesting characters and a gripping plot. The first clue there was a problem were the homophobic references. A cop feels like he had 'rolled in mud' when talking to a gay man and had to go flirt with women to 'get cleansed'. Holy homophobia, Batman! "From his breathy voice and overuse of the word 'fabulous', Mason had inferred the man was a flamer..." "Dramatic sorrow had filled the flamer's voice as he related how DeCosta had ignored his advances." "EVEN A LESBIAN would react to the raw testosterone that pumped into the air around him." Who thinks like this? A really sexy person can make you switch teams??? No matter how sexy Sofia Vergara is, I don't have an urge to jump her bones. Maybe this magic testosterone could replace those programs that gay people are enrolled in to change their orientation. Then there are multiple references to the fa. word. At two-thirds the book starts to go off the rails. With the love of his life in immediate danger, the hero gets drunk. The two of them are unable to figure out how to get a hotel room without getting tracked by their credit cards yet they are surrounded by friends and police who could help. Sex with a known playboy without any discussion of a condom or any form of birth control was surprising. Then the heroine says it herself, 'It'd been like a B horror movie, and she'd starred as the too-stupid-to live female lead." Yup. The final five percent goes beyond unbelievable into the land of ridiculous. The behavior of the police, Lacey's father, and particularly Kelly is nothing less mind-boggling and throws the reader under the literary bus. The ending makes Scooby-Doo look like Tolstoy. 10 of 10 people found the following review helpful. Just another predictable love story/almost forensic By averyclevergirl Save your reading time. The author doesn't get into police work or forensics. If you like rich hero's chasing after their girl, this book is for you. I was hoping for a little Karen Slaughter or Patricia Cornwell type tension and all I did was keep putting the book down instead of turning pages because it was too predictable. 0 of 0 people found the following review helpful. Bone Secrets are aplenty in Kendra Elliot's world By Spartacus I have read all of Kendra Elliot's Bone Secret Novels. Instead of reviewing each individually, I'm just going to make a big one here. All of them take place in a small town in Oregon. The characters are well drawn and the plots are meticulously planned. I discovered this series on a whim. I had been doing a bunch of research on a project and needed a light break. Enter Kendra Elliot. All her characters are fun to read and realistic, in the sense where you probably know somebody or have met somebody similar to her characters. They are fun, easy, fast reads. Elliot does an excellent job blending romance with a powerful crime mystery. She captures the small town mentality so well, that you get drawn into the characters' paranoia that everyone becomes a suspect. Elliot leaves you guessing until the very end. If you're looking for a fast fun read for the beach or a cold winter day/night with hot chocolate or tea, this is the series for you. See all 2652 customer reviews...
