From School Library Journal Gr 7 Up—Emma is desperately in love with her gorgeous all-star boyfriend, Lucas, who is dying of cancer. His friends and family have given up on his recovery. Emma, who cannot imagine a world without him, is the only person who believes that Lucas can be brought back from the brink of death. A mysterious object crash-lands in the yard and that same night Lucas begins a swift and miraculous recovery. When strange government agents show up asking about the crash, Emma knows that something is not right. She quickly realizes that Lucas is not the same person he was before his illness. His body has been invaded by a benign alien life

force, named Scout. Before the dangerous government agents find them, Emma and Scout embark on a mission to send Scout back to his home planet and give Lucas back his body. The plot is fast paced and easy to dive into, making this a quick and exciting read. Emma is very much in love with Lucas, which can make her character come off as clingy and overly dependent. The secondary characters are two-dimensional and sometimes unbelievable in that they each serve a very specific role in making a seemingly impossible situation unrealistically possible. VERDICT Aside from these minor character flaws, this book is an enjoyable stand-alone read for a new science fiction fan.—Annalise Ammer, Henrietta Public Library, NY Review “The plot is fast paced and easy to dive into, making this a quick and exciting read.” —School Library Journal “Left me in tears! An author's job is to write & entertain reader's and Karen certainly got me hooked and I was entertained from the beginning to the end. I liked Emma's determination and dedication to stay strong and stay close to her boyfriend, she talks to him and stays with him at night. She knows that Lucas love's his dog so Emma pick's Mack up and puts him on the bed to be close to him until Lucas's Mom scolded Emma for putting Mack on the bed because of dog hairs she found. To me Emma was one of the best characters in this story. Dedicated to do anything that she could think of to try and help Lucas. Emma even went so far as to visit Mrs. Kokesh who is a witch who does magic and who lived in a haunted looking house. Emma went too see this lady praying she could help heal Lucas. Also liked Scout and all he went through. Also liked Eric who is Lucas's 14 year old brother. His family, his friends, his doctors—believed that any moment Lucas could die. How any parent could give up so quickly is sad. They should have had faith, hope and stayed beside their son's bedside. Everyone handles these situations differently for sure. I didn't like Lucas's parents especially his mom I also didn't like Nancy the hospice nurse who went to Lucas's house to keep a check on him. She gave no hope for Lucas and her attitude was so negative when talking to the family. I would of opened the door and told Nancy to get out now. The cover for From A Distant Star is great and catch's one's interest for this sci-fi / fantasy story. 0 of 0 people
