Twelve humans are left stranded on a wintry alien planet. I'm one of them. Yay, me. In order to survive, we have to take on a symbiont that wants to rewire our bodies to live in this brutal place. I like to call it a cootie. And my cootie's a jerk, because it also thinks I'm the mate to the biggest, surliest alien of the group. -- BARBARIAN ALIEN is a sequel to ICE PLANET BARBARIANS. You do not have to read both in order to understand the plot, but the story will be richer if you do!

Review: Barbarian Alien ~ Sad, sweet, and sexy! By Angela @ Angel's Guilty Pleasures Barbarian Alien is book two in the Ice Planet Barbarians by Ruby Dixon. Here we have Liz and Raahosh story. The world and characters Ms. Dixon has created are fascinating. Each character is unique and you can connect to them. I like the dual-POV's. They help give us both Liz and Raahosh perspective. We have a couple here who need to work on their communication. Raahosh is not a talker and Liz, well she talks too much. Raahosh has some deep wounds in his soul that need healing. Having a mate gives him that chance to finally heal and have a family, but it doesn't come easily. Liz puts up a fight. The one thing I really didn't like was Liz's treatment of Raahosh. I dislike a heroine who will smack a hero. I get that she is frustrated with her situation and that many if not all of her choices have been taken away from her, but to treat Raahosh the way she does with her actions and words, was disappointing. It made me dislike Liz. Finally around the 35% range Liz has a revelation and gets her ass in gear. She apologizes and gives him a chance and starts to learn about the world. Once they progress, I finally fell into the story. They have a few challenges to get through with the tribe; before they can be together. It's sad, sweet, and sexy. I'm very much enjoying this Sci-Fi Romance series. Even though Barbarian Alien was not at the top of my list in this series. I still enjoyed it enough to go out and buy the next book. All the characters have enthralled me. Rated: 3.5 Stars 4 of 4 people found the following review helpful. Hilarious and Steamy By jcmulligan This story is from the point of view of Liz and Rahoosh. Liz is a loud mouthed, sarcastic, swearing survivor from the crashed space ship and Rahoosh is a hunter and somewhat outcast from his clan. The story takes off when the women are saved from the ship by the Not Hoth clan and Georgie. The women are not doing well because of the conditions and the environment which is not compatible with humans. They will need a khui which is a worm like thing or host that lives in their body to filter the harmful environment. Needless to say, the women were not feeling totally on board to take on this khui. Rahoosh's khui is speaking to him that Liz is his mate and decides to take off with her on his own which is a big no no. Liz is having no part of this and fights Rahoosh the whole way. However, she is forced to take the khui which she humorously calls a cootie. Once Liz's cootie is in her body it becomes apparent that her cootie is speaking to Rahoosh's cootie meaning that she is attached to him and she is fit to be tied. Liz is not a sweet and demure person but more of a dirty mind and mouthed one. She may not be as appealing as Georgie from the first book for some but I like her even more. I felt I understood and related to her because of the great writing of her character. She was constantly whining and vexing about her situation thinking Rahoosh didn't understand her but in fact he did. As in the first book, the humor was what was the most appealing part. I was laughing throughout at the things Liz would say. She would often blame her cootie for her actions and that she even called it a cootie was hilarious. The chemistry was steamy but the romance developed overtime. Their relationship was believable and I was rooting for them. The characters especially Liz and Rahoosh were written about in the first person to bring their readers along with their thoughts and desires. The writing was crisp, smart and fun to read with never a dull moment. I loved it! 0 of 0 people found the following review helpful. Beauty and The Beast in Outer Space By Anebrd Micro Review! I think I get too wordy when I write book reviews so I am trying this Micro Review from Tumblr. Author and Title? Ruby Dixon's BARBARIAN ALIEN, second book in the ICE PLANET BARBARIANS series What made you pick it up? The first book in the series was so good and this book is Outer Space Beauty and the Beast. I had to read it. And I have had to reread it. It has become one of those books I go to when I need a pick me up because I like the characters so much. Was it what you expected? Yes. For a sweet smutty book about a big blue alien adorable grumpy cat and his Queen of Sarcasm, it is wonderful. This is my third time to reread it. Would you read the sequel? I am in the process of rereading its sequel. The only thing stopping me from finishing is I want to write a quick book review for this smutty, sweet Beauty and the Beast in a galaxy far far away novel. Whenever Ruby Dixon pops out a Ice Planet Barbarian book I turn into Fry from Futurama-Shut up and Take My Money. I am about a dozen books behind but that doesn't stop me from buying the books. I love these characters. It would probably help if I didn't try to read the whole series every time I get in the

mood for science fiction romances and/or Ice Planet Barbarians. This book is Beauty and the Beast in Outer Space. All our aliens are big blue with horns, ridges and a tail. However our hero Raahosh is scarred on his face and is missing a horn. He thought he was going to be alone forever. (He was a virgin!) I don't know if Liz would be described as a beauty but she is pure spitfire, independent and strong. See all 290 customer reviews...
