Fresh off a divorce from a Hollywood hotshot, Madison Atwood needs an escape. With the paparazzi fresh on her heels and her love life splashed on every tabloid, she runs away to a swanky retreat in Northern California. Avalon Springs is the mountainside haven she needs to find herself again. Luke Dawson lives off the grid, preferring solitude to society. When he finds a beautiful woman soaking in the hot springs on his property, he can't stop himself from watching her. She captures his attention, but she's just a city girl—a beautiful distraction disturbing the peace he's settled here to find. When Madison discovers Luke's secluded cabin, he can't turn her away again. They make no promises. Madison needs to feel wanted again, and Luke misses the touch of a woman. But when mother nature has other plans, they're forced to spend more than a night of passion together. Can Luke say goodbye to the only woman who's made him feel anything in years, and can Madison leave behind the man who brought her back to life? **** Misadventures is a romantic series of spicy standalone novels, each written or co-written by some of the best names in romance. The stories are scandalous, refreshing, and, of course, incredibly sexy. They're the perfect bedside read, a 'quick blush' for the reader who loves a page-turning romance.

By Phuong Richardson Madison Atwood is fresh off a divorce from her high school sweetheart who she found out had been cheating on her. Heartbroken, Madison decides to go away for some "me" time. She decides to go to an retreat in the woods in northern California. Luke Dawson is a loner who lives in the cabin that he built in the woods close to the retreat. Luke finds Madison swimming in the springs and since she was skinny dipping, he got an eyeful and what he saw, he really liked. When Madison and Luke come together, it is total HOTNESS. The time they spent together snowbound in his cabin is romantic and comical. They know that their relationship is temporary since they both have different lives so they enjoy each other during the time that they do have together. Luke is one hot mountain man though and Madison can't believe he would be attracted to her. Once reality sets in for both of them, Madison and Luke have to decide if their relationship is worth making the necessary changes to their lives (her's in LA and his in the mountains) so that they can be with each other. I laughed so hard with some of the things that happened in this book and I am a total fan of Meredith and Chelle's books so this was a great read by both authors combined in one story! 0 of 0 people found the following review helpful.
