Read Ebook [PDF] Mohammed's Koran: Why Muslims Kill For Islam By Peter McLoughlin, Tommy Robinson

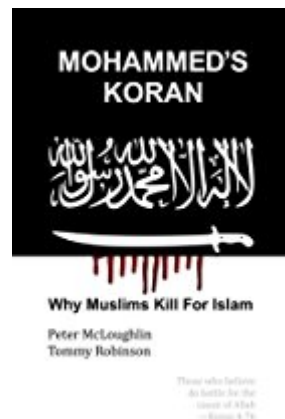

Why are most of the terrorists in the West drawn from the small percentage of our population who are Muslims? This book makes it perfectly clear that Islam is a religion of war and conquest, and that this is precisely how Islam was viewed in the West, right up until thousands of innocent Americans were wiped out on 9/11. The book shows how, since year 1 of the Islamic calendar, Jihad has been the fundamental component leading to Islam's success. And the book proves that this account of Islam was known by the educated elite across the West for centuries. We prove that "Islam is a Religion of Peace" is The Grand Lie of the 21st century, a form of Holocaust Denial refusing to recognize the endless slaughter of non-Muslims by Muslims. In addition to the 100 page Introduction showing how in just 20 years the lies of the elite have turned the notion of Islam upside-down, the book contains an entire Koran, decrypted by placing the parts of the Koran into chronological order - thus demonstrating that Islam was a failure until Mohammed started to make killing unbelievers an act of worship within Islam. Within minutes of looking at our presentation of the Koran you will understand why so much terrorism comes from the small minority who are Muslims. Moreover, you will understand why many other Muslims are not taking an active role in the vanguard of Jihadi terrorism. You will see laid bare the Koran's obsession with non-Muslims and Islam's obsession with wiping out any belief system that is not Islamic. The problem with Islamic terrorism gets worse by the year. Politicians, clergy, teachers are lying to you and your children. They are working to enable the violent Islamic takeover of the West. When the state and the professional classes are aligned with Islam, you owe it to your family to learn the true scale of the problem.

Please Ignore The 1-Star Haters By W.D.Lady *If you want to read my NEW updated review, it's down below.* I'm giving this five stars, because I see fascists on here giving it 1-star and trying to get this book banned permanently on Amazon. No other site or bookstore is selling Tommy Robinson's books. Only fascists hate the truth and they want to censor Freedom of Speech when it doesn't fit their agenda. These haters haven't even bought nor read the book. They can't even give you actual proof of what they claim is "hateful speech." I actually bought the book and know that I will love it, because Tommy Robinson always tells the truth about the dangers of Islam. Islam and Sharia Law is not compatible to Western Laws and Western Civilization. Sharia Law is not compatible to the U.S. Constitution. I've been reading and following up on Tommy Robinson for a couple of years now. I'm still reading Tommy's first book, Enemy Of The State. It's sad, disturbing, and incredible what he had to go through. All Tommy ever wanted to do was to protect those who had no voices, like the 1,400 child rape victims of Rotherham. Politicians, the mainstream media, and the police did absolutely nothing to help these victims. They allowed Muslims to get away with raping, killing, and terrorizing neighborhoods for years. Tommy's a hero and he should deserve a medal of honor. All his books deserve 5-stars. NEW UPDATED REVIEW! I'm going to go through everything as best as I can, so you understand what exactly is in this book. I made some notes for myself and even created a list of pros and cons. However, this doesn't change my old, original 5 star review above. PROS – I got the book early, yesterday August 1st on Tuesday. It arrived on time and in perfect condition. Here's some pictures as proof. I read it in a matter of hours. I'll probably read it again, because it's just that amazing. This is by far the most well researched book ever written about the Koran. I don't normally read books like this; however, it's extremely detailed and historically accurate. I love this book! I love everything about it. There's so many things about this book that I could literally talk about it for hours. The book is broken down into parts or sections. There's a total of 4-6 parts in this book. Pages 4-101 is the Introduction. From there it's the Koran pages 104-332. Notes pages 334-384. Recommended Books 385-389. Then the Appendix and the Encrypted Koran Index. The Koran is broken down into two segments (Mohammed's Success & Mohammed's Failure). Mohammed was successful in making one of the most violent, misogynistic death cults in the world. This part is the real Koran where Muslims slaughter Non-Muslims, Apostates, Christians, and Jews just to get a place into Heaven (or Paradise) which is still ongoing today. Nothing much has changed. Mohammed did have some so-called peaceful verses, but it wasn't popular to begin with. He had no more than 150 followers in 13 years, but when he made Islam violent he had an army of 10,000 in less than 10 years. This is basic history, folks. However, this will not be taught to you nor your kids. This kind of information is NOT in public schools, colleges, and so on because everything is literally controlled by the Left and their political agenda. This book gives you exact Koran verses and breaks it down for you in a way that you can understand, for anyone to understand. Anyone can read this book, but sadly most people won't read it especially if they're liberals or Muslims, who have been brainwashed into believing that Islam is a "Religion of Peace." Islam has always been a "Religion of War" and has been at war with everyone (including other religions) for the last 1400 years. Good luck trying to convince Liberals, even Christian Liberals to read this book and Enemy of The State. I got into an argument with a Christian, because her excuse not to read this book is... she

only reads the Bible and not the Koran. There you go. You can't force Liberals to read this book, since they don't want to listen to reason or facts. I'm sure if she was a Muslim, she would have said the same thing but in the reverse order. CONS – Reading the Koran was difficult at times, because a lot of the text was pretty small. I have really bad eyesight, so I kind of wish they would've made the text a little bit bigger. Of course, I understand that if they did this we'd have a 600 page book instead of 400 pages. The bold texts were fine by the way, including the crossed out texts because I could still read them quite clearly. When reading the violent verses of the Koran, it felt like I was reading Hitler's Mein Kampf, the ramblings of a madman. That's basically what it is. Mohammed was a raging lunatic, pedophile, hypocrite, and bloody-thirsty serial killer/rapist. Coming from a strict religious background (although not religious myself), Mohammed basically took parts of the Christian & Jewish Bibles and twisted them into a 'perverted' cult of his own creation. The Koran is the most disturbing and disgusting thing to read. I forced myself to read it because knowledge is power and I want to share that knowledge to those who will listen. Another issue I had with this book...I felt it's way too short. In fact, I wanted to read more and wished the authors went deeper into the treatment of Muslim Women in Islam. There are parts of the Koran where wife beating is approved by Mohammed. I just wanted a bit more explanation about it and some history of the violence against women. Maybe Tommy Robinson and Peter McLoughlin will write another book, going into more details about the misogyny and sexist views so prevalent in Islam and Sharia Law. Today, far too many Muslim women are stoned to death, beaten, forced into sexual slavery, suffering from Islamic FGM, and have such miserable lives (being treated less than animals) in the Middle East and abroad. It would be nice to have more information on that, including other Islamic Scriptures such as the Hadith. I'd like to see them write a book together with Dr. Bill Warner, who has written many different books describing Sharia Law, Muslim Women, Slavery, the Politics of Islam, and more. Other than that, this is one of the best written and probably one of the most important books in history. This concludes my review. 258 of 268 people found the following review helpful. Support freedom of the press By I.Farmer I am glad to see Amazon supporting freedom of the press and free speech and not censorship. I think it's important to see this interpretation of the Koran to understand what it happening in the world today. 209 of 219 people found the following review helpful. One of the most important books of the century. By Brian Unlike nearly all the reviews here: I HAVE READ THE BOOK! I believe this will be one of the most important books of the decade or maybe the century. Partly because of what is in the book (It's excellent) and partly because of the audience it will reach via Tommy's fans. I'm writing this review the day before the Kindle release and 4 days after the book went on sale. Unlike all the 50+ reviews, both positive and negative written at this point, I've read the book. I read the first (private) edition and contributed to it working with the authors, both of whom I've known for a number of years. I've read and reviewed Easy Meat by Peter McLoughlin and Enemy of the State by Tommy Robinson. The introduction of the book is an excellent exploration of the conditions into how deceptive information about Islam has come to dominate western discourse. Thoroughly researched and beautifully footnoted. The attention to detail is spectacular. This work builds on that of many of the giants of the counter Jihad movement and they're all named in the bibliography. The language is accessible and open, it begs to be read without skipping detail or useful information. The way in which elites have steadily changed the story on what Islam is as portrayed to ordinary people who shouldn't have to study ancient texts is shocking. While the presentation of Islam has changed from a warlike cult into a peaceful religion, the practice of Islam seems to have, if anything, changed for the worse! The once secularising Turkey has regressed and even today heads more toward Islam based strictly on the life and practices of Mohammed just as become clear in this version of the Koran. The main work is a resetting of the Pickthall translation of the Koran. This is a well respected translation and the translation is beyond reproach. The genius here is resetting it in REVERSE CHRONOLOGICAL order and showing clearly which early (usually peaceful) verses are cancelled by later (usually warlike) ones. I've never seen anything this clear. A book like this can't be produced by the mainstream publishing world: but we live in a beautiful era where this kind of knowledge can now be

disseminated bypassing the usual gatekeepers. As long as it isn't banned. However, if this book is to be banned as "hate speech" it is an acknowledgement that one of the three primary texts of the Islam is full of hatred for non-Muslims. See all 188 customer reviews...
